LOT OF CHARGES FILED AGAINST THIS STRANGER

Accused of Stealing Whisky
From a Box Car, and Articles
From Employees and Officials
in Railroad Yards—Arrested
Today

HAS NOTHING TO SAY AT ALL

Excellent work on the part of Special Policemen Pat Kirk and Dick Tolbert, of the Illinois Central, and Patrolman Jake Rouse, resulted in the arrest of Will Barton, a red-headed, red-faced stranger, who is accused of several felonies, and who will be given a chance to explain his conduct Friday morning in police court.

Barton was arrested last night at the Illinois Central station while boarding a train to leave the city. He wore an overcoat identified as that stolen from A. F. Beyers, assistant general yardmaster of the Illinois Central; and Barton was identified by Beyers as the man who slept in his room at a lodging house when he missed the coat. Whisky, identified as that stolen from a box car, was found on Barton, also articles taken from Conductor Val Barlick's caboose.

Charges of robbing Barlick's caboose, of stealing the overcoat from Beyers, of carrying concealed weapons and obtaining money by false pretenses in selling a pair of boots stolen from Conductor Barlick, have been filed against him.

He is suspected of having robbed Engineer Edward Walker of his watch and money last week, and the matter is being investigated. Barton refused to talk.

The accidental killing of W. D. Melton, of Bandana, who fell from a street car at Seventh street and Broadway here several months ago and died of a fractured skull, has brought complications in his bankrupt matter.

This morning exceptions to the discharge of Melton as a bankrupt were heard by Referee Bagby, but continued until Friday to give Administrator Rudolph time to prepare an answer. Melton was adjudicated a bankrupt before death and had acquired about \$2,000 since the adjudication. This was exempted until death threw it into his estate, which now becomes subject to his debts.

ENGLISH RAILWAY SERVANTS ARE VOTING TO STRIKE FOR EIGHT HOUR DAY AND UNION

Terrible Wreck in Which More Than
Score are Killed and Many Hurt---
Train Burns.

London, Oct. 15.—At least fifteen persons perished, 23 were gravely injured and many suffered less serious hurts in a wreck of a Northwestern railway train on a curve near Shrewsbury today. Besides corpses already taken from the debris it is feared other bodies are buried in the wreck. Fire followed the crash and bodies of the dead were partly burned. Many of the injured were frightfully burned before they could be dragged from the timbers, which pinned them down.

London, Oct. 15.—About nine out of ten members of the Amalgamated Society of Railroad servants are voting for a strike on every line in this city. The results will be announced October 28. A walkout would tie up practically every mile of track on the island and paralyze commerce all over Great Britain. Men want an eight-hour day, recognition of the union and also present other grievances. The Amalgamated society has a membership of 97,000.

Dupont Powder Explosion.

Terre Haute, Ind., Oct. 15.—At least four men were killed and scores badly injured in the explosion at the Dupont Powder works at Fontaine today. Practically the entire village was destroyed. The explosion was heard 60 miles from the scene. Reports, not verified, said probably 40 were killed in a public school building. The two-story structure collapsed, burying 200 pupils. A general store and several other buildings collapsed, burying the occupants. Fontaine is a coal mining village, the only other industry in the vicinity being the powder works. Reports say

DOOLIN SAID DOG WAS SOLD BY SELF BUT HE IS HELD

Jim Doolin was held over to the grand jury for stealing a bull terrier from the James Jewell's grocery and saloon at Sixth and Finley streets on Saturday evening. Doolin attempted to lay the entire matter at the door of his companion, Bud Self, who has since disappeared.

Doolin and Self drove to Jewell's saloon and coaxed the dog into the buggy. They drove off, and according to Doolin's story, Self sold the dog at Isenman's wagon yard for 25 cents. Jewell testified that the dog was valued at \$50. He hasn't recovered the dog. Doolin's bond was fixed at \$300.

Riley Pitman in Bad.
Riley Pitman, a blacksmith, was held to the grand jury for obtaining money by false pretenses. He is accused of selling a hide to Wapfolk-Bowers & company for \$2.35 when it did not belong to him. Pitman declared that he bought the hide from a stranger for 80 cents. The hide was taken from a farmer's wagon in a wagon yard near Clark and Third streets.

Following closely on the creation of the office of "assistant general yardmaster of Paducah Illinois Central yards," comes the creation of a second office, that of "assistant general yardmaster of Paducah terminals, nights," and H. E. Hughes, of this city, has been given the position, assuming his new duties last night. This gives two assistant general yardmasters. Mr. Hughes' authority being as great during his hours as that of the general yardmaster. Now that the yard force has been thoroughly organized, no more serious blockades will result, it is thought.

Mr. Brack Owen went to Hamby Station this morning on business. Mr. Richard D. Bakrow, of Louisville, is in the city. He is at the head of Bakrow Bros., owners of the Palmer House cigar stand.

Mr. Bob Parrish went to Gilbertsville this morning to inspect lumber.

St. Louis, Oct. 15.—It became known today that the dead body of Arthur A. Mermod, a son of the late Alexander Mermod, one of the founders of the Mermod, Jaccard King Jewelry company, was found in a room at the Commercial hotel yesterday and that he had committed suicide. Despondency is believed to have caused his act.

War on All Big Pompadours.
Pittsburg, Pa., Oct. 15.—Manager of Pittsburg's big stores have declared war on the big pompadours, and scores of girls who insisted on wearing their hair tails way have been discharged, one of the leading stores letting twenty go at once without recommendations.

The claim is made that too much time is taken by the girls in taking care of this high mass of hair. The stores say they don't care for a neat little pompadour, but the big ones must go.

Dr. F. V. Kimbrough, of near Maxon's, was in the city today.

SPARK FROM HIS PIPE DROPPED IN DRAWER AND IGNITED POWDER.

Conductor M. B. Robertson, of the Illinois Central, was burned Monday evening by the explosion of powder, which became ignited in a peculiar manner. Mr. Robertson was searching a desk for some papers when a spark from the pipe he was smoking fell into a drawer containing a small quantity of loose gunpowder. The powder ignited and flashed up and Mr. Robertson was severely burned about the face and hands. The explosion set fire to the papers in the desk and it was with the greatest difficulty the blaze was extinguished before serious damage was done.

NOISY BURGLARS WAKE NEIGHBORS AND ARE ROUTED

Front windows in Joe A. Gardner's and Gilson's drug stores were smashed in last night by burglars, who were frightened away before entrance was gained. Gilson's drug store at Ninth street and Broadway, was first visited. Mrs. Frank Hoover, who resides across the street, heard the crash and telephoned the police station, but too late to catch the burglars. A short time after Gardner's drug store at Third and Tennessee streets, was visited. Burglars escaped immediately after breaking in the window, sleepers upstairs being awakened by the noise.

STUYVESANT FISH LOST FIRST ROUND IN HARAHAN FIGHT

Chicago, Oct. 15.—Stuyvesant Fish lost the first round in his fight for the control of the Illinois Central. His attorneys asked Judge Ball to postpone hearing the case. Attorneys for Harriman and Harahan objected on the grounds that \$5,000,000 worth of stock has been disfranchised by the restraining order. Judge Ball declared he had notified Fish's lawyers when they requested the injunction that they must be prepared to defend it at once, and he ordered the appearance of attorneys entered, so that the arguing might proceed immediately.

Union Men Walk Out.
Eight union carpenters and caulkers employed at the docks of the West Kentucky Coal company, at the foot of Ohio street, walked out this morning because the foreman gave employment to two non-union workmen. The company has been running an "open shop" for some time, the foreman, James Pruitt, being a non-union man. All the other mechanics employed have been members of the union, and but little friction has existed until this morning when two more non-union men were put to work. The eight union men promptly walked out and today the docks are being run by the three men. The officials of the coal company have not made any statements as to what would be done in regard to the strike.

STANDARD KNOWS WHAT ITS RIVALS ARE ENGAGED IN

New York, Oct. 15.—Hampton G. Westcott, vice-president of the Standard Oil company, of Kentucky, testified in the hearing of the federal suit against the oil combine, that in several southern states the Standard had found it expedient to sell much products through companies which the public believed to be independent. The practice of selling through the so-called independent companies which were owned by the combine was discontinued two years ago, according to Mr. Westcott.

Mr. Westcott threw a sidelight on the business department of the Standard concerning which the federal counsel has been seeking information since the beginning of the inquiry. Mr. Westcott testified that each month the main office of the Standard Oil company of Kentucky, at Covington, sent to him not only reports of the business operations of the Standard, but also statements concerning the freight shipments and sales of oil by all competitors. These statements, according to Mr. Westcott, gave the name of the consignee, consignee, amount of oil shipped and any information that might be available. Mr. Kellogg, counsel for the government, stated tonight that he expected to call William G. Rockefeller, assistant treasurer of the Standard Oil company of New Jersey, to the stand when the hearing is resumed tomorrow.

GERMANY DENIES ANY PURPOSE TO ANNEX AUSTRIA

Reasons Why Such Amalgamation is Not Possible Sent to
Ambassador at Washington
For President Roosevelt's
Satisfaction

WOULD NOT BENEFIT EMPIRE

Vienna, Oct. 15.—Although Emperor Francis Joseph seems to be holding his own today, physicians do not attempt to hide their uneasiness. There are no signs of recovery. The patient's age counts heavily against him.

Berlin, Oct. 15.—Regarding the persistent reports published in the English press that Germany desires to absorb Austria in the event of the death of Francis Joseph, it may be stated that the policy of Germany with reference to the internal affairs of Austria-Hungary has been declared to be one of entire aloofness.

The foreign office some months ago sent a dispatch on this subject to Baron Speck von Sternberg, German ambassador at Washington, for the information of President Roosevelt. The relations between Austria and Russia were reviewed in this communication historically, beginning with the controversies in the old German federation, which were settled by the war of 1866, and it was further set forth how Prussia, since then, had maintained the headship of the German states.

The entrance of Austria into the German imperial system would, according to the Prussian view, tend to revive the old antagonisms which had come to an end with the entire exclusion of Austria from the German councils. Furthermore, a strong Austrian empire was shown to be of advantage to Germany, because it was friendly to the government of Emperor William and a support to the present equilibrium of Europe.

In addition to the foregoing reasons embodied in an official expression there are two or three other considerations why Germany should not absorb Austria, which are regarded as vital to the German empire. The process of German unification is not yet so advanced that Austria could be taken with safety into the interests already firmly established.

It is known also that the Hohenzollern dynasty influences are against a course of action which might increase the numbers and strength of the Catholic party in Germany. This party already is very powerful, comprising about one-third of the total population, and should Austria come in with an immense addition of Catholics it would rekindle religious controversy and make the problems of government more difficult.

In addition to all this the German official view is that the Austro-Hungarian monarchy is not in the slightest danger of dissolution.

FISCAL COURT MEETING.

Fiscal court will meet in special session tomorrow for the purpose of opening bids for a steam heating and lighting plant at the court house and jail, and receiving a report from a committee appointed to settle with Fairbanks-Morse & Company, of Louisville, for water plant equipment at the county poor farm. (Special).—When the family of Calvin Briskill, of near Iuka, were awakened at an early hour this morning by the crackling of flames they found their home all ablaze, and it was with difficulty they all escaped. The house burned down and the loss was total. A defective flue is believed to have been the cause of the fire.

MURDER IN FIRST DEGREE CHARGED

Prosecution Will Demand the Life of Fred Magill

Damaging Testimony of Friends of Family, Will Be Adduced at Trial.

THE HAND WRITING IDENTIFIED.

Decatur, Ill., Oct. 15.—The prosecution will end its testimony against Fred Magill, the former Clinton banker, and his wife, Fay, charged with the murder of Mrs. Pet Magill, tonight.

"We will show the character of Magill and establish his guilt beyond any reasonable doubt," say the state's attorneys.

It is generally believed the state will consent to an acquittal for Fay Magill and that a verdict of murder in the second degree will be asked for Fred Magill. The attorneys however deny this. They say they will demand the death penalty for Magill and a lighter sentence for his wife.

Postmaster Frank Davidson, of Clinton, an intimate friend of the Magill family and a member of the coroner's jury, will be a witness. He will tell of Magill's nervousness on the morning after his wife's death. When the question of an inquest arose Magill is alleged to have exclaimed to Davidson:

"Why is an inquest wanted? People don't think I killed her, do they?" Miss Ida Grandy, sister of Mrs. Pet Magill, whose home is at Dayton, Ohio, will be here to testify as to the genuineness of the letters. Under the laws of Illinois there can be no expert witnesses on hand writing. Only those familiar with the penmanship of writers are competent to pass upon the reliability of chirography. Mrs. Magill's former correspondents will pass on the letters.

Warren Houghton, of Denver, and Benjamin Silverman, of Colorado Springs have arrived. It is said Houghton is in possession of letters written by Fay Graham and that these documents will throw light on the motive for the death of Mrs. Magill. What Silverman will swear to is not revealed.

OKLAHOMA JOINS DRY RANKS—625 SALOONS TO BE CLOSED.

Guthrie, Okla., Oct. 15.—Six hundred and twenty-five saloons will go out of business when the new state government becomes effective. The canvass of the election returns shows that state wide prohibition carried by a majority of more than 18,000. There is only one brewery in Oklahoma, and it will quit business at the same time as the saloons.

A difference of opinion exists as to the exact time when the saloons must close. It has been contended that as a part of the constitution prohibition becomes effective immediately when the president issues his proclamation admitting the state into the Union.

The prohibitionists believe they have discovered a joker in the prohibitory provision of the constitution, as it does not prohibit the shipping of intoxicating liquors into the eastern or Indian territory, half of the state but leaves the enforcement of the traffic entirely with the various county attorneys. In several of the larger Indian territory cities several saloons will be started the next day after President Roosevelt's proclamation is issued, depending upon the county attorney to be a friend rather than inimical to their business.

EDUCATION

AND HIGHER PAY FOR MINISTERS INTEREST SYNOD.

Kentucky Presbyterians Hold Important Sessions at Midway, Beginning Today.

Elder J. M. Brunson, of the First Presbyterian church, went to Midway today to attend the Kentucky synod. A Louisville paper says:

"Present indications are that Louisville or its vicinity will be made the seat of the educational institution for girls, which is to be established by the Southern Presbyterian church, in lieu of the Woman's college, which was to have been established at Danville, as the joint college of the northern and southern Presbyterians in this state. The plan for this joint action fell through some time ago, and since then members of the southern synod's committee have been looking about for a suitable institution to make a nucleus for the college which it has been determined to establish.

"According to members of the committee Bellewood Seminary, at Anchorage, is the institution which most of them favor.

"The matter of education will be discussed at a meeting of the Kentucky synod. The retiring moderator will open the session with a sermon, after which a new moderator will be elected. Many questions of importance will be considered.

"Higher pay for preachers will

likely prove a topic of interest. This will come up in connection with the synod's evangelistic work as it is said that many of the mountain preachers are receiving pay not in proportion to their labors."

ORCHESTRA

WILL BE ORGANIZED IN HIGH SCHOOL THIS YEAR.

Teachers Believe Talent Equal to That of Last Year Is Available.

Semi-monthly concerts so popular in the High schools last year, will be resumed this year, the faculty deciding on organization of the High school orchestra. Organization will be effected this week, and Friday the first musical program will be rendered. Mr. Clark Bondurant, first violin who led last year, will lead Friday for the one concert. Mr. Bondurant graduated last year, but on request of the faculty agreed to play the one time.

With the material in the High school, teachers believe that they can organize as good an orchestra as that of last year. Following are the pupils who will doubtless compose the orchestra: Miss May Bonds, piano; George Rawleigh, first violin; Bertam Brown, clarinet; Robert Bondurant, cornet, and Stewart Bonds, trombone.

CONSPICUOUS IN A BALLROOM.

Flakes of Dandruff on the Collar and Shoulders of a Gentleman in Full Dress.

This is the thing you quite frequently see in the ballroom—a man's black dress-coat literally covered with dandruff.

It must be annoying to the wearer, and certainly not a pleasant thing to observe. But dandruff can be eradicated. It is a germ disease that will some day cause baldness.

Newbro's Herpicide kills the hair-destroying germ, and stimulates the hair to a rich, abundant growth; it does more—keeps the hair soft and pliant.

Furthermore, Herpicide is a most pleasant toilet accessory; of pleasing odor, and cooling to the scalp.

"Up and at 'em, boys! We got them

on the run," says the Kentucky State

Journal.

We all are familiar with the story

of the bear hunter, who was chased

home by a grizzly, and who, as the

old farm house loomed into sight,

shouted to his sons: "Open the barn

door, boys, I am bringing one home

alive!"

If as many thousand must be

deducted from Henry Hines' estimate

of Hager's majority in other districts,

in order to arrive at an approxima-

tion of the result of the November

election, as must be deducted from

the estimated 12,000 in the First dis-

trict, the indications corroborate

Chairman Albert Scott's claim of a

Willson victory.

CONSIDER THE SOURCE.

It was scarcely necessary for the

News-Democrat to discuss the

source of its information and we were

prepared when it announced by way

of introduction that "a well known

local POLITICIAN, who has kept

pretty thoroughly in touch with the

movements of the Republicans of

the outlying districts and WHO HAS

FREQUENTED WITHIN THE LAST

FEW DAYS THE NEGRO DIVES

AND SUBURBAN SALOONS, remark-

ed last night:

"Colored Republicans will insist

upon in the matter of appointments,

such positions as on the police force,

in the fire department, street depart-

ment and other departments. It is

also learned on good authority that these demands will be made or have already been made upon Mr. Smith, the Republican nominee for mayor and that the negroes are smart enough to request that all promises be made in writing, and that but a short while since an attempt was made by certain Republican leaders to make terms with a certain Democratic nominee, which, if successful, would have meant that the Republican nominee for the same office would have been deserted."

We have no doubt that the News-Democrat is in close touch with well known local politicians who "frequent negro dives," for the way E. W. Bagby ran behind for police judge in certain precincts last fall indicates all too clearly how effective is the Democratic organization in handling the "dive" vote.

In all seriousness The Sun is glad the News-Democrat, if its purpose eventually was to depart from the pathway of decency and truth in this campaign, stated that old fake about race issues so early, in order that independent voters, who might be frightened by the imposture at first, may have time to get over their fright.

There is no one attempting to raise any race issue, but the News-Democrat, and that sheet has been endeavoring through its news columns and editorials for months to stir up race hatred and strife, jeopardizing the lives of our women and children, as did the late lamented Atlanta News, for the sake of whatever temporary political advantage might be gained.

The time for such methods is past.

Its course is indecent, unpatriotic, unprofessional and devoid of honor and truth.

The Sun has no doubt that the better element of colored voters will support the Republican ticket this fall, just as we are certain the independent white voters, who have a sincere regard for the value of the franchise, will support A. E. Willson and James P. Smith and their associates on the ticket. It scarcely could be otherwise, unless the little gang of office hungry fellows, who consider themselves the nucleus around which the Democratic party is organized, succeed in creating a bogus issue, as they are now trying to do.

The statement that James P. Smith has been approached by any colored voter with the demand that official recognition be accorded him or anybody else in return for the vote of the race, is an absolute lie, and we are confident the lie was concocted, as the News-Democrat says, by a "well-known politician, who frequents negro dives."

Sheriff Scott Bullitt, of Jefferson county, did not injure horse racing when he threatened to stop gambling at Churchill Downs, nor did Sheriff Bullitt put an end to the fall race meet. The meet was voluntarily called off by former Mayor Charles Grainger and his associates, because Sheriff Bullitt stopped the gambling. The action of the Jockey club was an admission that gambling was an essential element in their races, an unfortunate condition, indeed, but not one for which Sheriff Bullitt was to blame. He had the law to enforce.

AN INIQUITY.

The last legislature by a strict party vote passed the proposal of an amendment to the constitution, providing that no one shall vote, who owes one cent on his state, county or city taxes for the preceding year. The amendment is submitted to voters this year, but the Democratic spellbinders are keeping mighty mum about its virtues. The amendment provides practically a property qualification for voting and is a fellow to the primary election, which costs thousands of dollars and prohibits poor men from entering the contest, unless backed by some interest with sufficient funds to pay their share of the primary election expenses.

This is not a prejudiced partisan view of the amendment. Listen to the words of the Democratic Mayfield Messenger:

"None of our political speakers who have visited Mayfield have expressed themselves on the constitutional amendment that is to be voted on next month. This is a question that should engage the attention of every voter in Kentucky. All such amendments ought to be relegated to the past. Kentucky is not yet exactly ready to so fix her constitution as to allow the iron heel of oppression to destroy the suffrages of the southern voter so as to prevent him from voting because of poverty."

A CRIPPLED MAN.

"L. K. Taylor, the crippled lawyer who formerly took an active part in the politics of this district as a populist, moved from Paducah to Oklahoma last year and he landed in the state senate in the recent election there. He will represent the Chickasha district," says the Mayfield Messenger.

"We protest, while Mr. Taylor is afflicted with the loss of one leg, he is not a crippled lawyer,"—Calvert City Times.

British Naval Spies.

Berlin, Oct. 15.—The correspondent of The Tageblatt at Emden, telegraphs that according to a dispatch received from Horkum a spying yacht with English naval officers on board, has been captured by two Wilhelmshaven torpedo boats. The officers are suspected of having taken soundings and made photographs in forbidden waters.

SOUTHERN

CHARGED WITH DISCRIMINATION BY COAL MEN.

Is Enabled to Fix and Dictate Rates and Prices and Act Arbitrarily.

Washington, Oct. 15.—The Tennessee Coal company, the Tennessee Coal company and the Royal Coal and Coke company, all of Knoxville, Tenn., have filed a complaint with the interstate commerce commission against the Southern railroad, charging that it practices discrimination in the allotment of cars to them. The complaints recite that the railroad has certain "preferential cars," "railway fuel cars" and "arbitrary cars" which it does not count in the allotment of cars to the various mines, and that this works a hardship on them. They assert that where there are two mines, one in favor of the railroad and the other not, the railroad will claim that there are, out of a hundred cars, fifty that are "preferential" or to be "loaded with fuel for the railroad." This leaves only fifty cars to be ratably apportioned, and the next result is that one company gets seventy-five cars and the other twenty-five out of the hundred.

The complainants state that by reason of this discrimination the Southern has been able for more than a year past to fix, dictate and maintain a rate of \$1.10 per ton on all coal purchased from mines on its Knoxville division, whereas the complainants' coal sells for more in the commercial markets. They ask for damages ranging from \$50,000 to \$100,000 each.

\$300,000 LOSS.

Fire at Pencoyd Iron Works of the American Bridge Company.

Philadelphia, Pa., Oct. 15.—Fire today at the Pencoyd Iron Works of the American Bridge company on the outskirts of this city, caused damage to the extent of about \$300,000. The carpenter shop, lumber storehouse, erecting shop and two dwellings were destroyed, including some important plans and models. The origin of the fire is not known, but is believed to have been started by tramps who were spending the night in a freight car near the carpenter shop.

WOMAN RAFFLES NOT GUILTY.

Milwaukee, Wis., Oct. 15.—"Mrs. Romadka is not considered a criminal by the Chicago police. I have been told by them that they do not consider her responsible for the crimes which have been laid at her door, and that when they are able to capture the responsible party, the mysterious 'Ralph Smith,' I may take my client out of the Chicago police station a free woman."

This astounding statement was made by John F. Donovan, attorney for the woman "Raffles." In other words, Mr. Donovan declared that his client is not the vile creature she has been painted, but that she has been foolish or insane enough to take upon herself the burden of the robberies to shield a man.

On Trail of "Smith."

Chicago, Oct. 15.—Central station detectives have closed on the trail of the mysterious "Ralph Smith," confederate of Mrs. Evelyn Cain Romadka, the confessed woman burglar, at the fashionable Lakota hotel, Michigan avenue and Thirteenth street.

Wedding Not Postponed.

Newport, Oct. 15.—Friends of Mrs. Cornelius Vanderbilt today declared the report that the wedding of Gladys Vanderbilt to Count Seachony had been indefinitely postponed, to be groundless.

Each year more men try linen mesh underwear, and invariably they like it so well they always wear it thereafter.

It is the ideal underwear for winter or summer wear, keeping, as it does, the temperature of the body always normal.

PHILIPPINE ASSEMBLY TO MEET.

Taft's Address Will Influence Future Action on Political Questions.

Manila, Oct. 15.—Great interest is shown in the opening of the first Philippine assembly, which will take place this week, and the arrival of Secretary Taft, which comes at an opportune time in the inauguration of Philippine home rule. At a caucus a motion to have the assembly proceedings opened with prayer was defeated by one vote. The action of the assembly on questions relating to the political future of the Philippines is expected to be determined largely by the opinion expressed by Secretary Taft in his address opening the session.

The course of legislative action will depend mainly on the result of the fight of the Gomez radicals for control of the national party.

The indications are that Manuel Quezon will be the successful candidate for speaker. He is believed to be favorably regarded at Washington and his election gives assurance that no resolution for the independence of the Philippines will be considered.

The Society of the Army of the Cumberland will meet in the convention hall at the Read House Wednesday morning at 10 o'clock, with Gen. Gates P. Thurston, president of the society in the chair. The morning session and the afternoon session at 3 o'clock will be given to the regular business of the society. At 7:30 that night the annual oration will be delivered by Col. M. H. Fitch. On Thursday morning the soldiers will visit the battlefield of Chickamauga. That night the annual banquet will take place at the eRad House.

A feature of the meeting will be the presence of Maj.-Gen. O. O. Howard, the only surviving corps commander of the army.

HELP OF ALL SWEDES IS ASKED.

Subscriptions to Build Challenger Is Solicited in America.

Stockholm, Oct. 15.—Should the Americans insist on a larger craft than the seventy-footer for the yacht race for the American cup it is calculated that it will cost 1,200,000 kronor, instead of 500,000 kronor, which Messrs. Kyhlberg and Olsson originally estimated.

Mr. Olsson is drawing up a subscription proposition, appealing to Swedes, not only here, but also to those who have become well-to-do in the United States to put up their cash to help Sweden's sporting effort.

Mr. Olsson accordingly asks the Swedish newspapers throughout the United States to copy this dispatch, so as to interest the 2,500,000 Swedes living in the republic. In reply William Olsson, Stockholm, is ample address.

PRETTY PHOTO WINS \$400,000.

Wealthy Mexican Leaves Fortune to Woman Whose Portrait He Admired.

Milwaukee, Oct. 15.—Mrs. Lydia Paeschke, of this city, has been left a fortune of \$400,000 by Senor Juan Jose Manda, of Mexico. The senior saw a photograph of Mrs. Paeschke and fell in love with it. He wrote a letter to the young woman ardently expressing his love, but she did not respond. Soon afterward he died, and when his will was opened it was found that his entire fortune was left to the woman of the picture whom he had never seen. Inasmuch as there are no heirs at law, and as the will is legally drawn, Mrs. Paeschke will get the money as soon as the estate is administered. Mrs. Paeschke was until recently Mrs. Paul Rosenthal, of West Bend, Wis., but was granted a divorce, the custody of her daughter, 2 years old, and the privilege of resuming her maiden name.

STANDARD OIL PLANS MERGER OF BIG NATURAL GAS PLANTS.

Pittsburg, Pa., Oct. 15.—One of the first steps in the proposed reorganization of the Standard Oil company may mean the concentration of the natural gas interests of the Standard under one company, with Pittsburg as the headquarters.

The People's Natural Gas company of Pittsburg, it is declared, is to be used as the nucleus of a great new organization, with a New Jersey charter.

What Osteopathy Is.

The question is often asked "What is Osteopathy?" for some people have a very vague idea of this new science that is doing so much to aid mankind. Osteopathy, when well digested, is nothing but good sense and reason.

It is a method for treating disease by manipulation, to restore the normal condition of the nerve control and the blood supply to every organ of the body by removing the physical obstructions, or by stimulating, or checking, functional activity, as the conditions may require.

A diseased body is caused by some interference to a working part of the organism, and a correction of it brings restored health. Therefore, osteopathy finds the disturbance and, fighting it, effects its cure.

Some of the diseases in which osteopathic treatment has been the most effective are headaches of all kinds, nervous disorders, malaria and bilious, tired down and fagged out conditions, indigestion in its many forms, kidney troubles, neuralgia and rheumatism. It treats successfully however, nearly all diseases. If you are ailing, no matter what your particular trouble may be, I should like to have you call and let me tell you why Osteopathy will cure in your special case. I do not claim that Osteopathy is a cure-all, but am frank and will tell you what it will do in any individual case, at the same time referring you to people you know, who will gladly tell you what the treatment has done for them.

My office hours are from 9 to 12 in the forenoon and 2 to 5 in the afternoon, phone number 1407.

Strike Off at Milan.

Rome, Oct. 15.—Although the general strike has been officially called off at Milan, the labor situation in other cities of the North of Italy is disquieting. It is understood that the decision taken by the labor leaders at Milan was the result of a promise on the part of Signor Giolitti, the premier and minister of the interior, that the government would punish the carbiniers who fired on the strikers if the investigation being made proves that they were not justified in shooting into the crowd.

The Splendid New Serial Story

Satan Sanderson

Satan Sanderson is the true embodiment of the requisites that make a really great story. It gives the reader a look into a little world of action where all of the emotions that make or mar life—and lives—are set in swift, exciting play—one against the other. Incident follows incident with quick succession, and a vivid panorama of intrigue, mystery, love and strange adventure kindles the interest to the fusing point.

Written in a charming style, brilliant in coloring, picturesque in background, faithful in characterization and intensely dramatic, with stirring climax, Satan Sanderson is by all odds the best story of the year.

"May I see your dynamo?" asked Lermontoff.

The governor, with one final warning of his hands, took up a candle, told the jailer to remove the shade from the lamp and bring it, led the way along a passage and then into a room where the prisoner, on first entering, had heard the roar of water.

"What's this you have, a turbine? Does it give you any power?"

"Oh, it gives power enough," said the governor.

"Let's see how you turn on the stream."

The governor set the turbine to work, and the dynamo began to hum, a sound which to the educated ear of Lermontoff told him several things.

"That's all right, governor; turn it off. This is a somewhat old fashioned dynamo, but it ought to give you all the light you can use. You must be a natural-born electrician, or you never could have got this machinery working as well as it does."

The dull eyes of the governor glowed for one brief moment, then resumed their customary expression of saddened tiredness.

"Now," said Jack, throwing off his coat, "I want a wrench, screwdriver, hammer and a pair of pliers if you have got them."

"Here's the tool chest," said the governor, and Jack found all he needed. Bidding the governor hold the candle here, there and elsewhere and ordering the jailer about as if he were an apprentice, Jack set energetically to work, and for half an hour no one spoke.

"Turn on that water again," he commanded.

The governor did so, and the machine whirled with quite a different note. Half a dozen electric lamps in the room flooded the place with a dazzling white glow.

"There you are," cried Jack, rubbing the oil off his hands on a piece of coarse sackcloth. "Now, Tommy, put those things back in the tool chest," he said to the jailer. Then to the governor: "Let's see how things look in the big room."

The passage was lit, and the governor's room showed every mark on wall, ceiling and floor.

"I told you, governor," said Jack with a laugh, "that I didn't know why I was sent here, but now I understand. Providence took pity on you and ordered me to strike a light."

At that moment the jailer entered with his jingling keys, and the enthusiastic expression faded from the governor's face, leaving it once more coldly impassive, but he spoke in German instead of Russian.

"I am very much indebted to your highness, and it grieves me that our relationship remains unchanged."

"Oh, that's all right," cried Lermontoff breezily. "If it is within your power to allow me to come and give you some lessons in electricity and the care of dynamos, I shall be very glad to do so."

To this offer the governor made no reply, but he went on still in German: "I shall transfer you to cell No. 1, which is not only more comfortable, but the water there is pure. Did you say you spoke English?"

"Yes; quite as well as I do Russian."

The governor continued, with, nevertheless, a little hesitation: "On the re-

turn of the steamer there will be an English prisoner. I will give him cell No. 2, and if you don't talk so loud that the jailer hears you it may perhaps make the day less wearisome."

"You are very kind," said Jack, rigidly suppressing any trace of either emotion or interest as he heard the intelligence, leaping at once to certain conclusions nevertheless. "I shan't ask for anything more, much as I should like to mention candles, matches and tobacco."

"It is possible you may find all three in No. 1 before this time tomorrow." Then in Russian the governor said to the jailer:

"See if No. 1 is ready."

The jailer departed, and the governor, throwing open a drawer in his table, took out two candles, a box of matches and a packet of cigarettes.

"Put these in your pocket," he said. "The cell door opens very slowly, so you will always know when the jailer is coming. In that case blow out your

light and conceal your candle. It will last the longer."

The jailer returned.

"The cell is ready, excellency," he said.

"Take away the prisoner," commanded the governor gruffly.

UNPROVOKED

WAS KILLING OF GERTRUDE PENDLETON BY ALEX WADE.

According to Evidence Introduced at Coroner's Inquiry Yesterday Afternoon.

An inquest held to investigate the death of Gertrude Pendleton, colored, who died in the patrol wagon Saturday night, resulted in a verdict that the woman was killed by a knife stab inflicted by Alex Wade, colored. The inquest was held yesterday afternoon at the city hall, and there were few witnesses.

The killing was unprovoked, according to testimony. A steamboat mate who knows Wade, testified that he saw Wade and another negro man coming north on Second street from Clark street, and that Wade was beating the woman all the way. Near Washington street the mate saw Wade raise a knife and plunge it into manded him to stop, saying, "That's the woman. Wade's companion enough," and the two then ran, the woman falling to the ground. When asked who had stabbed her, she replied "Alex Wade" and these were the last words she spoke.

BILLY REBELS

WOULD CARRY NO LOAD WITH LIQUOR TOO.

Inebriate Candidate for Lodge Degrees "Shoots Up" Assemblage When Goat Refused.

Valdosta, Ga., Oct. 15.—John Wilson bucked up against a temperance goat when he presented himself for initiation into the lodge of the Woodmen of the World at Sahara, near here, last night, and because the goat showed a lack of good fellowship proper on Saturday night drew his revolver, "shot up" the lodge room and drove the redoubtable Billy and his admirers in panic from the room.

Wilson, in preparation for his initiation, which was to be a great event, had celebrated fittingly. There are no saloons in Sahara, which by some is called Sahara, but behind the prescription cases in certain drug stores are oases where the cup that cheers and also inebriates may be found, and Wilson, according to all accounts, found it several times.

Guaranteed Cure for Constipation

After watching results for sixteen years, during which time many millions of bottles were sold and thousands of letters from users were received, the originators of Dr. Caldwell's Syrup Pepsin, the great herb laxative compound, feel safe in guaranteeing it in the various diseases of the stomach, liver and bowels, such as chronic constipation, dyspepsia, indigestion, biliousness, flatulency, sour stomach, bloated stomach, heartburn, etc. There is an absolute guarantee to refund the purchase price if Dr. Caldwell's Syrup Pepsin does not do what is claimed for it.

For sixteen years this remedy has been recommended for stomach, liver and bowel complaints and the fact that each year more and more families are using it proves that it has the merit claimed for it and the letters we are constantly receiving prove that it is curing these diseases. Hence the guarantee is justified.

Mr. Alston, of Richmond, E. T., considers Dr. Caldwell's Syrup Pepsin the best laxative tonic on the market because, to use his own words, "It does all you claim for it and I know of another medicine of its kind that does." Mrs. Williams, of Sidney, Ill., writes that she has used it in her home all her married life and would not keep house without it. Thousands of others have written to the same effect.

If you have any complaint for which Dr. Caldwell's Syrup Pepsin is recommended go to your druggist and get a 50-cent or \$1 bottle. Take on the basis that we guarantee satisfaction. You will find it gentle in action and pleasant in taste. It works promptly and efficiently, and unlike purgative waters, salts and cathartic powders or pills, does not gripe and leave you feeling weak and torn. It is safe to say that you will like to use it regularly when you have call for a laxative. It is especially suited to children and weak people because of its gentle action.

FREE TEST Those wishing to try Dr. Caldwell's Syrup Pepsin have a free sample bottle sent to them before addressing the company. This offer is made to those who have never taken it. Send for it if you have any symptoms of stomach, liver or bowel disease. Gentlest yet made. For children, laxative for women and old folks. A guaranteed, permanent home cure. THE C. arrived, and Wilson, with twenty other candidates, appeared at the lodge room. Two or three rode the goat safely, and then came Wilson's turn.

But the goat smelled liquor on his breath and balked. The rules of the order are strict against liquor, and the goat was loyal. A committee was appointed to apprise Wilson of the goat's scruples.

But Wilson was determined. "Guess I can ride this goat if anybody can," he shouted. "I'm sober enough to ride any goat that ever ate a poster for breakfast."

But the committee was obdurate. Wilson was told politely but firmly that he must leave the room.

"Leave the room, is it?" he cried. "Not on your life. If anybody leaves the room I'll be you fellows and the goat. Think I'll stay right here."

With that he drew his revolver and began shooting out the lights. There was a wild scramble for the door in which the goat and lodge men joined, and in a moment Wilson was in sole possession of the room.

He was calmly snoozing in the seat of honor when the town marshal arrived. He will explain to the police judge tomorrow.

American Cup Challenger Will Be Built in Stockholm—Material Gratis.

Stockholm, Oct. 15.—William Olsson and Gösta Kyhlberg, who are at the head of a movement here to build a challenger for America's cup, say that a large portion of the money required to construct and sail the 90 footer, estimated at about \$189,000, has already been subscribed. Many large manufacturers have offered to furnish material gratis and the captain and three mates of the yacht will sail her without any pay. The designer will accept no compensation for his work and the builders only will charge the net cost of construction.

A Cure for Sea Sickness.

A chat with a hardy Breton fisherman brought forth this novel cure for seasickness. While the old man told of the storms that he had been through, the long journeys he had taken, he was interrupted with the question, "and seasickness? Were you ever sick?" "Never," he replied, and I'll tell you the reason if you like to hear—I never went on any ship without taking a little mirror in my pocket. As soon as I felt the sickness coming on I looked steadily in the glass, and all symptoms passed away. I got the cure from my father, and I never knew it to fail. The receipt is easily tried, and if it does not convince the skeptical there is the consolation that no loss need be entailed in giving it a chance.—Ex.

TWO POLICEMEN AND TWO FIREMEN

Elected at Meeting of Commissioners Last Night

Patrolmen Casper Jones and William Johnson Reinstated and Are Exonerated.

WILLIAM ORR HAS RESIGNED

Policemen—Peter Eich, T. H. Wallace.
Firemen—Perry Story, George Glenn.

Two firemen and two policemen were elected last night, and two patrolmen, who had been expelled for drinking while on duty, were reinstated at a regular meeting of the board of fire and police commissioners at the city hall last night.

All members were present. The matter of reinstating Casper Jones and William Johnson, who had been dismissed for taking a drink while on duty, was suggested. Johnson and Jones had been accused by M. C. Reasons, a farmer from Tennessee, of accepting money from him for his release from arrest for carrying concealed a deadly weapon. During the trial it developed that the policemen had taken a drink, and the commissioners dismissed them, ignoring the charges brought by the Tennesseean. Last night they exonerated the two patrolmen from the charge brought by the farmer.

The resignation of Patrolman William Orr was received. He had been laid off pending a trial on indictments in circuit court, charging him with robbery.

Charles Bennett was released from service as a patrolman, it developing that he has not been a resident of Paducah one year.

Wright Gibbs and Max Pruess were dismissed as firemen for drinking on duty.

Elections were gone into and Peter Eich and T. H. Wallace were elected patrolmen to fill the vacancies. Eich has served as a policeman before and Wallace is a carpenter well known on the south side.

George Glenn and Perry Story were elected firemen to fill the vacancies caused by the removal of Gibbs and Pruess. Story is a mill man formerly connected with the Langstaff-Orm Manufacturing company and Glenn is a well known potter.

To the mayor was referred the matter of repairing doors at No. 4 fire station.

The matter of stationing officers at polls election day was left to the discretion of Chief of Police James Collins.

Dogs Who Prove Alibis.

At every house in the block, from the drug store on one corner to the saloon on the other corner, the boy leading the little yellow dog stopped and put an anxious inquiry:

"Say, did you see people see this dog around here this morning between 10 and 11 o'clock?"

Several persons were found who were willing to swear to the whereabouts of the yellow pup at that particular time. Finally the boy turned in triumph to the policeman who had followed him.

"See," said he, "it wasn't Jake. Jake's proved an alibi."

The officer appeared unconvinced.

but he had to take the witnesses' word for the innocence of Jake.

"It's getting to be as hard work to convict a dog as a person," he said. "Every pup in town who gets into a scrape sets out to prove an alibi. Some dogs bit a child up the street this morning. It was one of the dogs in this block, but which? Every one I have caught so far has got off on the alibi dodge. Up to a few weeks ago nobody on this beat ever thought of working up an alibi for a dog. Now that is the first thing his owner thinks of, and he can get so many people to swear to the whereabouts of his dog at a certain time that the professional alibi swears will soon be as hard to deal with as the professional bondsmen."—New York Times.

With Two Hearts.

The X-rays are queer things. They have just discovered that Ira J. Salvarsan, a private in the army—significant fact!—has two hearts. In

addition to this his liver and spleen are on the wrong side. The news beat in unison and Salvarsan didn't know there was anything abnormal about him until the X-rays came around and found No. 2 on the right side of him, which was wrong for a heart. After this we may look for a similar case. Shouldn't be surprised if man's organs are 27 times duplicated, as it were, so if one gives out the other cannot fail to work.—Boston Herald.

TRAFFIC IN GIRLS IS TO BE STOPPED

Immigration Officials are Taking a Hand

Young Women Imported Into New York From Paris and From China, It Is Said.

DETECTIVES ARE ENGAGED

Washington, D. C., Oct. 15.—That the federal authorities, working in conjunction with the local police in New York and other large cities throughout the country, intend to break up the slave traffic in women and boys is vouched for by Oscar S. Straus, secretary of commerce and labor, and Frank P. Sargent, commissioner general of immigration.

Reports just placed in the hands of officials here show that women are being brought to the United States in ever increasing numbers from nearly every European country, particularly France, and from China and Japan. In New York, for example, according to advices received from Helen M. Bullis, who was appointed immigrant inspector at Ellis island for the purpose of paying special attention to the illicit traffic in women, houses run for immoral purposes are supplied with girls from Paris.

Several disorderly houses in New York, known to harbor women imported for improper purposes, are now under surveillance. The important thing, in Miss Bullis' opinion, is not to deport these women but to apprehend and punish to the extreme limit of the law the men engaged in the business of trafficking in them.

Would End Traffic in Boys.

Secretary Straus, in his determination to end, if possible, the slave traffic in women also plans to break up the system whereby hundreds of boys, most of them Greeks, are held in a number of big cities of the United States in a condition practi-

cally amounting to bondage. Under Secretary Straus' direction a comprehensive inquiry into this form of slavery has been in progress for months. The investigation is indirectly in charge of Alcibiades Seraphic, a Greek, recognized as one of the most competent inspectors in the immigration service. In this case Greek has been pitted against Greek with gratifying results to the government. Inspector Seraphic has prosecuted his work in New York, Boston, Philadelphia, Chicago, St. Louis, Kansas City, Indianapolis and New Orleans. His reports, it is understood, disclose a startling state of affairs, and in a number of instances, upon evidence collected by Seraphic, Greek padrones have been brought into the courts and convicted of violations of the immigration laws. Other convictions in this connection are expected to follow.

There is good reason to believe that in a comparatively short time disorderly houses in New York and other cities will be raided and their alien inmates taken into custody, to be held as witnesses against those responsible for their importation, and afterwards deported. About the same time there will be a roundup of the Greek padrones now under surveillance.

Miss Bullis Travels on Steamers.

Miss Bullis was authorized to travel on immigrant steamers plying between New York and foreign ports. This was done when Secretary Straus' attention was first directed to flagrant violations of those provisions of the law relating to women or girls imported for immoral purposes. Miss Bullis was given a temporary appointment, but the indications are that she will be permanently retained in the immigration service.

In the work of driving out the white slave traffic the authorities expect great aid from certain foreigners in New York, some of whom, however, prefer to extend a helping hand in the form of anonymous letters, such as the following, a copy of which has just been forwarded to Washington by Miss Bullis:

"If you want to make a good round up of women annually arriving in this country, go to (naming a resort on the west side). That house is run by a Frenchman, and is the first stop in this country of a good many women from Paris before they are sent to the disorderly houses of Chicago

and the cribs of western states and Alaska. There are about eighteen women always in that house. They are in the country not more than two or three weeks, and some are under age."

The house designated was visited by the New York police and the facts as represented in the anonymous communication substantiated. It is understood, in every detail.

Pacific Coast Cities to Aid.
On the Pacific coast the practice of bringing over Japanese and Chinese girls for immoral purposes is an old story. Local police authorities on the coast are said to have winked at the traffic, but now that the federal government has become awakened to the seriousness of the situation it is the expectation that the police of San Francisco, Seattle and other coast cities will co-operate to the end that the immigration laws may be vigorously enforced.

Secretary Straus and Commissioner General Sargent have issued instructions to immigration officers to arrest and deport alien women of ill repute and procurers of such women.

If Secretary Straus can break up the traffic in immoral women and boys brought to this country to serve in practical slavery he will count it as one of the most important achievements of his administration of the department of commerce and labor.

ECZEMA SKIN DEEP—NOT IN THE BLOOD.

Skin Diseases Can Be Cured Only By Treating the Skin.

It is useless to try to cure skin disease by pouring vile, poisonous drugs into the stomach—this has been proven by years of study and experimenting by the world's greatest scientists and specialists in cutaneous diseases.

When it was proved that skin disease was in the skin only and not in the blood, attention was immediately given to discover a remedy that would cure the disease by external application. Years were spent in study and experimenting, but finally Dr. Decatur D. Dennis, a skin specialist, of wide reputation, compounded a remedy consisting of purely vegetable ingredients and as clean and pleasant to use as pure water. This instantly gave relief and quickly cured the worst cases of skin disease. This remarkable remedy is called D. D. D. Prescription and the secret of its success is that it gets at the seat of the trouble, immediately killing the germs that cause the disease, and leaves the skin soft and clean, the disease completely cured.

"I had eczema and tried (3) doctors for (6) months," writes F. R. Tesar, banker and city collector of Hopkinson, Ia. "They did me no good. I wrote for a sample bottle of D. D. D. and started to use it. My face and mustache were all full of the disease. The sample did me good and I wrote for a dollar bottle, and now my face is smooth as a baby's. My head was full of dandruff and always itched, my hair was coming out but has stopped now. This has all disappeared and I feel 20 years younger. I would not be afraid to guarantee D. D. D. to cure eczema and dandruff in the worst stages. I would also advise that all barbers tell their customers who have dandruff to send at once for a dollar bottle of D. D. D. and get cured."

A liberal sample bottle can be had free postpaid by writing the D. D. D. Co., 112 Michigan St., Chicago, Ill., enclosing only 10c to help pay cost of packing and mailing. Or you can find this wonderful remedy on sale by R. W. Walker & Co., Fifth and Broadway, where you may also get free booklets on treatment and care of the skin, dieting, and bathing.

POSTAL FRAUDS \$1,000 A DAY.

Lack of System in Money Order Department Costly to Government.

Washington, Oct. 15.—Confronted with a statement by Henry A. Castle, former auditor of the postoffice department, that the government for a long time had lost an average of \$1,000 daily through error and fraud in the money order system, the congressional commission which is inquiring into postal methods has gone far enough to decide that important reforms are necessary in the conduct of the service.

The postoffice for years has been without the system of checks and balances known to every efficient private business enterprise. Before steps were taken to correct this defect, a postmaster in a western town, for instance, might issue a money order for \$100 to be paid in New York. He would receive the \$100 from the applicant and notify the postmaster at New York by the usual means, that he had issued an order for \$100. But in reporting to the department he might state that the order issued was for only \$1.

The system was such that the fraud would not be detected, for the western postmaster's order to the postmaster in New York and his report to the department were not brought together for comparison.

The Chief's Rebuke.

The New York Tribune tells this story of Admiral Walker: A brisk young naval officer one day rushed into the reception room of the chief of the bureau of navigation and petulantly demanded of the farmer-looking person in civilian attire who was walking up and down the room: "Is Walker in?" The plain individual thus addressed stopped short, looked the caller over with a quizzical gaze, and replied with most insinuating deliberation: "Don't be so formal. Call me John."

The towboat Lyda has gone to the Tennessee for ties.

Capt. M. H. Campbell has arrived from Cairo to make his headquarters here in the future.

Capt. Swain Townsend left yesterday for Springfield, Tenn., where he is superintending the construction of six large barges for use in the Big Sandy river.

The Inverness has gone to the Tennessee for a tow of ties.

The steamer Sallio arrived from the Tennessee river with a cargo of 115,000 feet of lumber and a good manifest of peanuts and other produce, and will depart on her return this afternoon at 5 o'clock. She failed to bring the barge America from Riverport, Ala. The barge was recently purchased of the Big Four Benton Lumber company by the Kansas City Steamship company to be used by its steamers in transporting freight to Kansas City on account of the low water in the Missouri river and to avoid overloading the steamers. Commodore Henry Seville is making preparations to winter his fleet of steamers at the mouth of the Tennessee river above Paducah, Ky., which is considered one of the best winter harbors in the country, being available to a dock company and fine resources of steamboat timber besides, with good facilities of transportation of workmen. There is seldom any ice in the Tennessee river.—St. Louis Globe Democrat.

Cuts the Fuel Bill in Half For Soft Coal, Lignite or Hard Coal

As you know fully one-half the carbon available for heat in soft coal is gas, the entire gas supply used for fuel and illumination in many cities and towns being made from common soft coal. The ordinary stove in burning soft coal allows this gas half of the fuel to pass up the chimney unburned, thus wasting it as a heat producer.

Cole's Original Hot Blast Stove, by means of the patented Hot Blast draft and other patented features, distills this gas from the upper surface of the coal, utilizing it as a heat producer along with the fixed carbon or coke in the coal, thus burning all the coal. This is why

Cole's Original Hot Blast

Saves the Dollars and makes a ton of common \$3.00 soft coal or lignite do the work of \$9.00 worth of hard coal.

Your old stove and imitation Hot Blast are not air tight, do not save the escaping gases and do not give you a warm house at night. You cannot afford to say to yourself "My old stove will have to do this winter." The old stove is eating up the price of a new stove every year. Not only that, but on top of the cost is the unsatisfactory result it gives. It is always out the coldest morning.

Even Heat Day and Night—Fire Never Out

Cole's Hot Blast is so perfect in construction that fire keeps all night, and when the draft is opened in the morning will burn two or three hours with the fuel put in the night before. No other stove does this. Fire, therefore, never goes out, and the rooms are kept at an even temperature all the time.

OUR GUARANTEE

- 1.—We guarantee a saving of one-third in fuel over any lower draft stove of the same size, with soft coal or slack.
- 2.—We guarantee Cole's Hot Blast to use less hard coal for heating a given space than any base burner made with same heating surface.
- 3.—We guarantee that the room can be heated from one to two hours each morning, with the soft coal or hard coal put in the stove the evening before, without attention.
- 4.—We guarantee that the stove will hold fire with soft coal 35 hours without attention.
- 5.—We guarantee a uniform heat day and night, with soft coal, hard coal or lignite.
- 6.—We guarantee every stove to remain absolutely air tight as long as used.
- 7.—We guarantee the feed door to be smoke and dust proof.

The above guarantee is made with the understanding that the stove be operated according to directions, and set up with a good flue.

For Hard Coal—Saves Half

The perfect control over the drafts, the slow economical combustion and the large positive radiating surface make Cole's Original Hot Blast the most economical and the best Hard Coal stove made.

Cole's Hot Blast is the modern heater and will save its cost in fuel every winter. Buy one for your home now.

Would You Lose \$50.00 in Fuel to Save \$1.00 on the Cost of Your Stove?

That is what you do when you buy a cheaply constructed, putty jointed, showy made imitation stove. Like all successful inventions, Cole's Original Hot Blast has many inferior imitations, avoid them. They all lack the patented features and careful construction, which make the Original Hot Blast a great success. They do not stay tight and soon open seams and cracks which render them worthless as fire keepers. See the name "Cole's Hot Blast from Chicago" on the feed door. None genuine without it.
